

Marcie Cramer, Licensed Psychotherapist and Out Trans Therapist
Katie Horton, Registered Mental Health Intern, Present:
Trans Competency Certification Training Intensive-8 hours Ceus
Including Updated WPATH Standards of Care Version 8

Many good therapists that have an interest or even a passion in understanding how to facilitate excellent therapy with those in the Trans community, but they know they don't always have the precise knowledge or perhaps feel confident enough to offer their services to those that need it most.

In this daylong Trans Competency Intensive Certification training, you will learn deep tools, skills and your next steps are therapeutically when trans, non-binary, and gender expansive clients come to you seeking your knowledge and guidance on this part of their therapeutic journey.

Just some of what you will learn in this daylong intensive certification is:

- *What are appropriate gender terms and pronouns? What it means deeply to be Trans?
- *Explore and define what safety and safe spaces look like specifically for these communities.
- *The stages of transition and the therapy needed at each stage; [Including Updated WPATH Standards of Care Version 8](#)
- *Transition resources: social, medical, legal that give your clients the support they deserve.
- * Facilitating/addressing coming out, transitioning, HRT letters, hormones, etc.
- *Gain the knowledge and direct implementation in assisting your trans/non-binary/gender expansive clients (including teens and youth) to connect with their family/friends throughout the transitioning process to obtain support/boundaries they need in all their relationships.
- * Clarity, tools and skills to assist on how challenging and layered the transition journey can be for your client and what types of traumas can and will surface during their transition.
